- 14) Asked me what do you understand by young seafarer on board. I came to know he was asking me about cadets age I told him 16 above he asked me what will be min then the ans is 18. Happy asked about his work hrs told him no independent jobs always assisted by senior officer, 40 hrs. and weekend off he will not be allowed in enclosed space entry jobs.
- 15) Which is the pollution prevention annex having D1 and D2 requirements. Told him about ballast system which system you had it on board was not able to tell him just gave him ans that the limit we use to keep it below 10 he was satisfied but expecting exact ans.
- 16) Ows rule for discharge. In case off flooding what will you do
- 17) Grounding scenario and asked me what will you do. Tell him about everything right from tank checks and how to slow down, sounding and any flooding and when out of navigational waters crank shaft deflection and
- 18) He then came to about sounding pipe and vents what are the things you will check
- 19) Some other basic questions he asked.

The surveyor was really good and supportive just give a good impression by dress up and then be confident and keep on talking whatever you know. Just imaging the things in front of you and ans the questions, you will be confident. It doesn't matter if you miss somethings he wants something special he will come back to you
